

EG&G ROCKY FLATS

ROCKY FLATS PLANT, P.O. BOX 464, GOLDEN, COLORADO 80402-0464 • (303) 966-7000

93-RF-6733

Attn: J. Pepe

By mutual agreement between DOE/RFO, the Environmental Protection Agency (EPA), and the Colorado Department of Health (CDH), Technical Memorandum No. 8 (TM 8), Monitoring Wells at IHSS 115, the Original Landfill, will be replaced by a letter outlining the activities required to bore four (4) or more wells near the toe of or in the Original Landfill. Technical Memorandum No. 8 is an external milestone, but not an IAG deliverable. It is EG&G's understanding that DOE will gain EPA and CDH's concurrence prior to the start up of these drilling activities. The acceptance of the letter replacing TM 8 by DOE will replace TM 8 as the deliverable milestone and shall replace TM 8 as the milestone deliverable in the Management Control System (MCS).

The location of the wells will be based on information developed from the recently completed Cone Penetrometer Testing (CPT) survey as well as all relevant data generated during the course of the ongoing OU 5 investigation and any additional information that is available.

If you have any questions regarding this transmittal, please contact E. C. Mast of Remediation Project Management at extension 8589.
